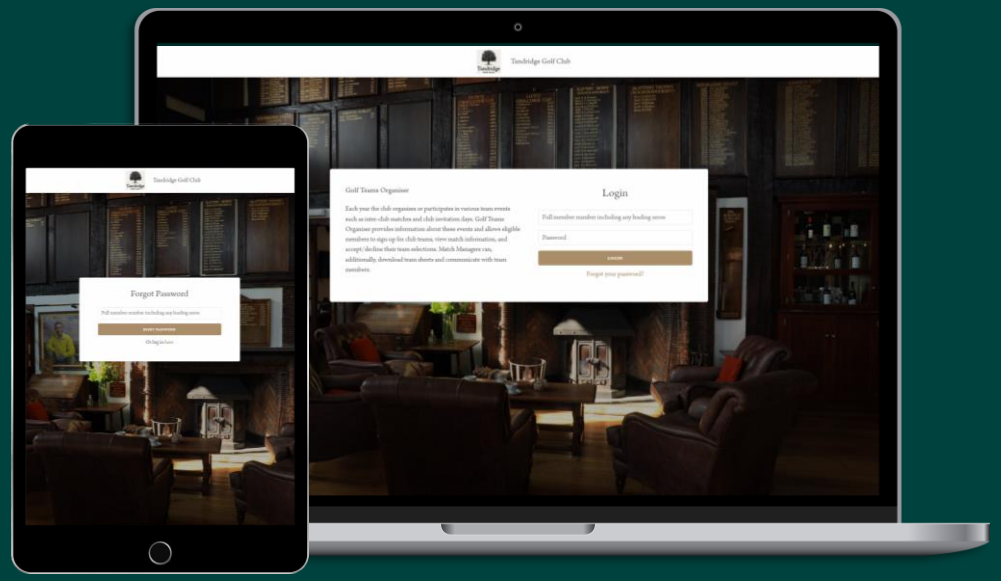
GOLFTECH

Inter-club Golf matches, simplified.



Golf Teams Organiser:

A Digital Solution to Solve all Your Match Organisation Needs

GOLFTECH

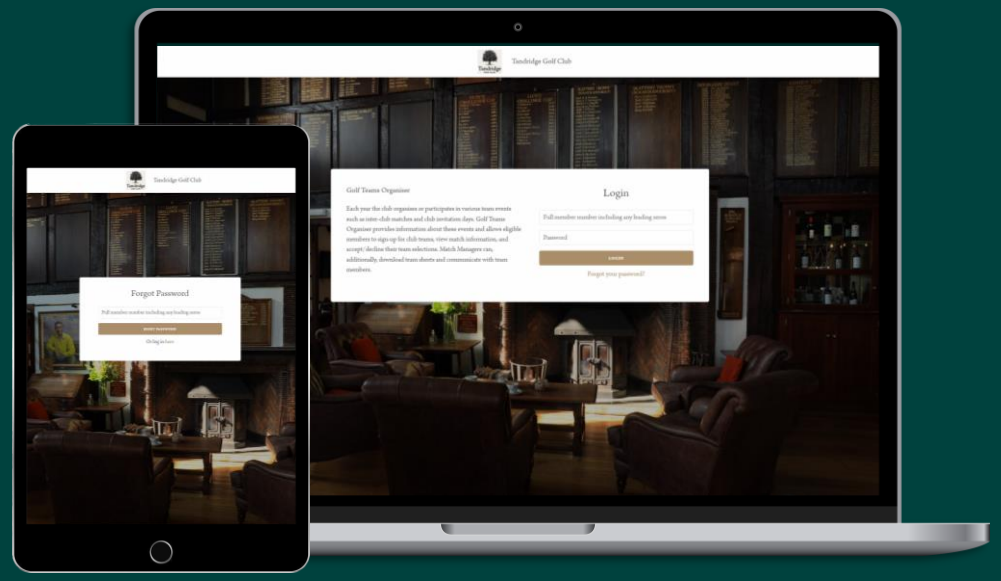
Inter-club competitive matches are one of the great pleasures of our game...

But are you...

1. Denying opportunities to play club matches to members to avoid administrative overload?
2. Frustrated with constant dropouts and finding replacements?
3. Burdened with unwieldy coordination of teams sheets, match information and reminders?

It's a lot of work, and it usually falls on one or two members using spreadsheets and endless chasing around of members with emails and phone calls.

GOLFTECH



Golf Teams Organiser:
Benefits & Features

Time & Effort Saved
Members 'sign up online and are immediately available for the organiser to select teams.

Quick & Easy Team Selection
Organisers select teams with a simple 'drag and drop' of names into a team and can see if members get a fair share of selections. Teams are easily adjusted to the desired handicap.

GOLFTECH

Automatic Dropout Replacement
Reserves are automatically promoted whenever a team member drops out.

Up-To-Date Teamsheets
Members are prompted to accept/decline their selections, which immediately updates team sheets.

Up-To-Date Handicap & Member Details
Members' handicap data and contact details are kept current with a simple interface compatible with most clubs' membership databases.

Automatic Notification of Team Selection
Members receive automatic email notifications and reminders of their match selections, which they must accept or decline.

See All Information In One Place
Members have their own login to view and edit their match applications and view fixture information (tee times, catering, match location, etc.).

One Click Member Emailing
Organisers can email team members with one click meaning no more searching for contact details.

GOLFTECH

Golf Teams Organiser:

How it Works

1. Club Administrator inputs match/series details
2. Members sign-up for the matches they are available to play in
3. Golf Teams Organiser sorts members by match availability
4. Series Organisers select teams based on member availability and match participation across the season
5. Golf Teams Organiser sends notifications to the members of their selections
6. Members accept or decline selections
7. Golf Teams Organiser automatically replaces dropouts with reserves
8. Match Manager obtains team sheets and sends the confirmation to team members

Founders & Early Adopters

James Markham | *Malcolm Green* | *Jeremy Wilson*

James is a management consultant and co-founder (with Tony McNeill) of B2E Solutions, which since 2002 has launched and supported - with funding, management direction and shared services - a number of businesses including 2 Technology businesses, a Contractor Supply business and a Consulting business.

Utilising the software development expertise of its associated companies and the subject matter expertise of Malcolm Green, B2E Solutions has now developed a new software solution, Golf Teams Organiser, to provide time-saving functionality for match organisation that is not currently contained in Golf Genius, Intelligent Golf or any other currently available application.
B2E Solutions has established an advisory team to help further develop the software and launch a new business, GolfTech, to bring this solution to the UK Golf Clubs market.

GOLFTECH

Founders & Early Adopters

James Markham | ***Malcolm Green*** | *Jeremy Wilson*

Malcolm is a former management consultant and member of Royal Wimbledon Golf Club. When he took over the organisation of men's seniors' fixtures at his club, he quickly discovered that with 100+ members wanting to play in more than 30 inter-club matches and invitation days he was going to drown in spreadsheets and paper if he didn't have a system to handle everything.

He requested the help of B2E Solutions who agreed to develop Golf Teams Organiser based on initial functional requirements provided by Malcolm. The introduction of this solution in Spring 2023 has substantially simplified the men's seniors' fixtures and other series are under review for adding. Malcolm is now a member of the advisory team helping B2E Solutions further develop its solution and establish a new GolfTech business to bring Golf Teams Organiser to other UK Golf Clubs.

GOLFTECH

Founders & Early Adopters

James Markham | Malcolm Green | ***Jeremy Wilson***

Jeremy is a former IT businessman and an active member of Tandridge Golf Club. Having held a number of management positions at the Club, Jeremy recognised that the organisation of inter-club matches is a lot of work, and it usually falls on one or two volunteer members using endless spreadsheets, and chasing around with emails and phone calls to find replacements for dropouts, etc.

The implementation of Golf Teams Organiser at Tandridge in Spring 2023 has substantially simplified administration for more than 45 matches and over 600 players, with more matches scheduled to be added. Jeremy has joined the advisory team to help B2E Solutions further develop its software and establish a new GolfTech business to bring Golf Teams Organiser to other UK Golf Clubs.
